

ODI Brand Book

Our place in the world

The ODI wants a world where data works for everyone.

To attain this, we want to ensure that data gets to those who need it, particularly to address the biggest challenges of our time, set out in the United Nations Sustainable Development Goals.

We work with organisations to help them use better data practices, with sectors and regions to ensure data is helping them flourish, and we help to interpret and apply the latest thinking around data and data infrastructure to policymaking and business practices.

How we do this is as important as why we do it. We aim to make the data ecosystem more equitable for everyone. We believe that this can only be achieved when we work hand in glove with the organisations and sectors that decide how data is used and ensure that we're matching their domain know-how with our data expertise.

Contents

How to use these guidelines

The guidelines are for people who wish to communicate on behalf of or in partnership with the ODI.

This guide is for creatives, non-creatives, prototypers and communicators. It is for anyone who needs to apply the ODI brand, such as our logo, visuals, and words, to communicate about the ODI with people either inside or outside the ODI.

Vision

We want a world where data works for everyone.

Mission

We work with companies and governments to build an open, trustworthy data ecosystem.

Expert
Enabling
Fearless

ODI values

Expert

We are good at what we do. We use our expertise to achieve our mission. We are open and generous with our expertise and experience, and share it outside and inside the ODI.

We can get better at what we do. We recognise the limits of our expertise and respect that of others. We are open to and seek advice, opinions and support to develop our expertise, within and outside the ODI. We reflect on what works and what doesn't to consciously learn, improve and grow.

Enabling

We succeed when others flourish. We support and challenge others to do their best work. We open up opportunities for other people and organisations, and empower them to take them. We are as open as possible about what we are doing and what we have learnt. We encourage others to refine and build on our work.

We empathise with others so we can help them. We find out what people and organisations really need.

We have empathy with their motivations and the constraints they operate under. We communicate in terms they understand.

Fearless

We are trusted because we are honest and responsible. We are open with our opinion, open to hearing what others say, open to being wrong and open to changing our mind. We are not afraid to speak our mind when it is useful or important, and take responsibility for the results of doing so.

We actively and curiously listen to others, and take responsibility for our responses to them. We can do more than we might think. We are bold, creative and open to failure. We know what we do won't be perfect at first but that doesn't stop us. We start small and quickly, and iterate to improve.

Get to know the ODI

The ODI is a non-profit with a mission to work with companies and governments to build an open, trustworthy data ecosystem. We work with a range of organisations, governments, public bodies and civil society to create a world where data works for everyone.

Our work includes applied research; consultancy services; training; and providing free reports, tools and webinars.

We focus our efforts in three broad areas:

- Improving the data practices of organisations so that they can build and manage adequate data infrastructure and data use.
- Tackling challenges so that the data ecosystem works better.
- Gathering and creating research, evidence and knowledge about data and benefits of open, trustworthy data access.

To find out more about what we do and how we work, [read our story here.](#)

People first

People first

People often ask us what kind of organisation we are. We don't fit into any one, neat box. but we do operate as an institute and we do undertake commercial work that advances our mission. In practice, this work translates to a range of activities including conducting applied research, delivering consultancy services and training, and providing free downloadable tools and online courses.

People first

We want as many people as possible to know about and benefit from what we do.

Our official partners over the years include ARUP, Microsoft, BBC, Sopra Steria, Roche, and Refinitiv.

People first

We have a membership body of 2,200, 16,000 people subscribe to our weekly newsletter, The Week in Data, and more than 2,000 people attended our two most recent online events. Since 2012, we have told stories about data through our Data as Culture art programme and, to date, have hosted 12 exhibitions, working with 74 artists who have made 104 artworks.

Tone of voice

Data speak

ODI Brand Book

Tone of voice

Words are a powerful tool for the ODI – they help us to express our ideas and reach new audiences in an open, clear and succinct way.

We see simplicity in language as a sign of our expertise. It's not just about accessibility, but about respecting people's time – we don't want to bore people with long sentences, complicated words and long essays to read.

We tend to concentrate on the 'why' the topics we cover are important and not just the 'how', so we can engage people emotionally, not just intellectually.

We do this through real-world examples and by telling stories from other people's perspectives.

Tone of voice

We express ourselves in everyday language because many of the people we want to engage aren't specialists in data. If you think your audience is more expert, you can adjust the language, but we'd always advise plain English as a default (not least because not everyone has English as their first language, and we aim to be inclusive).

Contact brand@theodi.com to get a copy of our editorial guidelines when they are published.

Visual brand principles

Open

Learn from others and share things openly

Considerate

Life is busy, respect people's time

Inclusive

Clear, simple and accessible

Relevant

Think of the user and the experience

Diverse

Our audience is global, represent them

Bold

Be confident with precise design

Sustainable

Reduce, reuse, recycle, create things that last

Playful

Keep an open mind, explore new ideas

Our logos

Brandmark

Brandmark

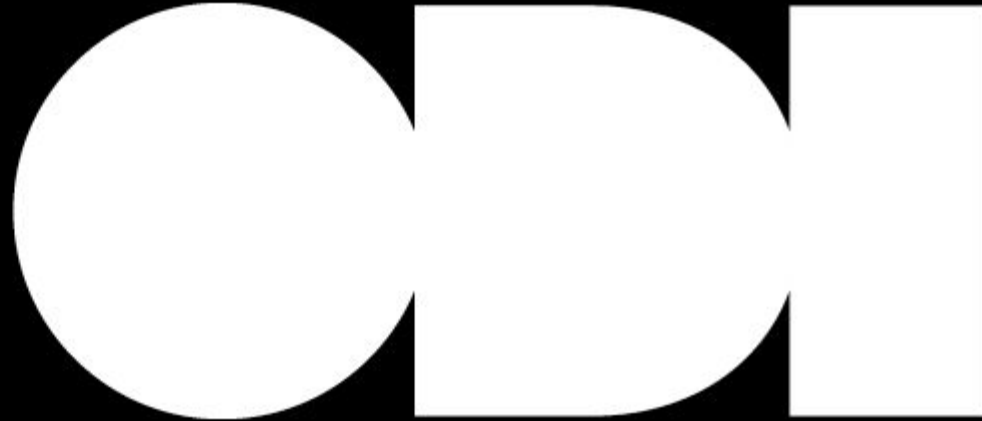

The ODI brandmark is robust and strong and should be a recognisable constant in the evolving data ecosystem.

Our brandmark can be fun, intelligent, dynamic, colourful, and technically savvy.

It is designed to represent both sides of data infrastructure: it is engineered and technical, yet, when seen from another angle, it is very human (do you see the person?) - reflecting our constant attention to how data affects people.

We boldly hold this middle ground, embracing technology with culture.

A combination which ensures people can relate to us — making the benefits of data sharing accessible, interesting and relevant to our wide range of audiences and stakeholders.

**We're proud of our logo,
use it confidently.**

**Don't slap a logo
on everything.**

Value beauty in simplicity.

ODI logo as a sculptural glass extrusion
for the ODI Open Data Awards 2015

Brandmark

Our logo is our most valuable brand asset. It should remain consistent across our communication channels and never be modified.

Originally built in the spirit of the Creative Commons initiative our logo reflects Openness, Transparency, Collaboration and Creativity.

Every ODI communications should be engaging and fit for purpose: clear, accessible, precise, confident, bold, interesting and relevant.

Logo rules: do not use this logo below 28 pixels in digital or 6mm in print.

X-Small (restricted use)

This version of the logo is specifically created to retain legibility at reduced sizes in digital and print.

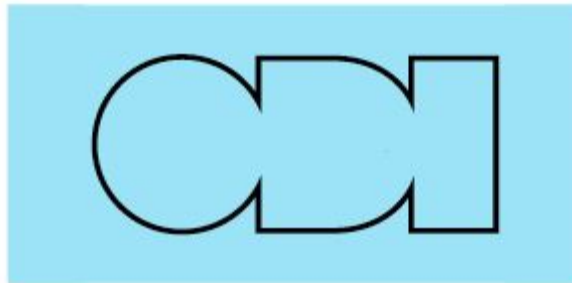

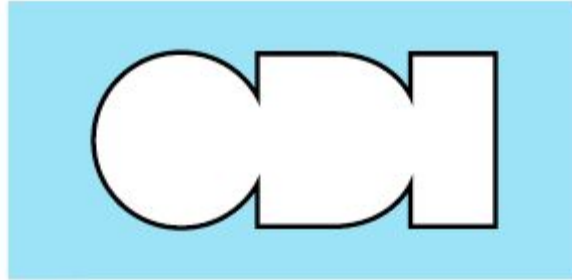

For logos files contact brand@theodi.org

Brandmark

Outline (restricted use)

The outline version has been created for marketing and communications campaigns which require more creative flexibility.

For logos files contact brand@theodi.org

Brand ambassador

Treat every brand asset is an ODI ambassador.

We encourage as much sharing as possible online, offline, wherever, whenever!

In creating a new ODI brand asset consider how you can increase its reach and add the creative commons CC by SA licence (especially if is a illustration, graph, image, report or infographic)

Being this open means we don't have all the metrics for how far our brand materials travel, and are used and reused. But, that's ok. We enjoy discovering our work being useful and relevant to more audiences, in more places.

Example:

Thanks to the ODI Summit name badges, no matter who took the photo, our logo became visible in every Summit photo, and in turn whichever channels it was posted.

[Download the CC by SA license logo](#)

Wordmark

v1 Small-scale use

- for third-party distribution, including: partners, clients, members, and press
- as a sign-off, attribution, project boilerplate statement, webpage/email footer, etc.
- on official documents
- quick guide PDF available

v2 Medium- and Large-scale use

- for third-party distribution
- displays including: signage, banners, posters, flags, etc.
- t-shirts

v2 Outline (restricted use)

- The outline version has been created for marketing and communications campaigns which require more creative flexibility.

[Link to the ODI logo 3rd party usage guidelines](#)

Logo rules

Minimum clear space = 50% logo height

Clear space

The minimum clear space around the logo is defined by the thickness of the letter 'I', or equals 50% height of the ODI letters.

Do not

Do not stretch, squash or warp the logo

Do not add a drop shadow to the logo

Do not rearrange or split the ODI letters

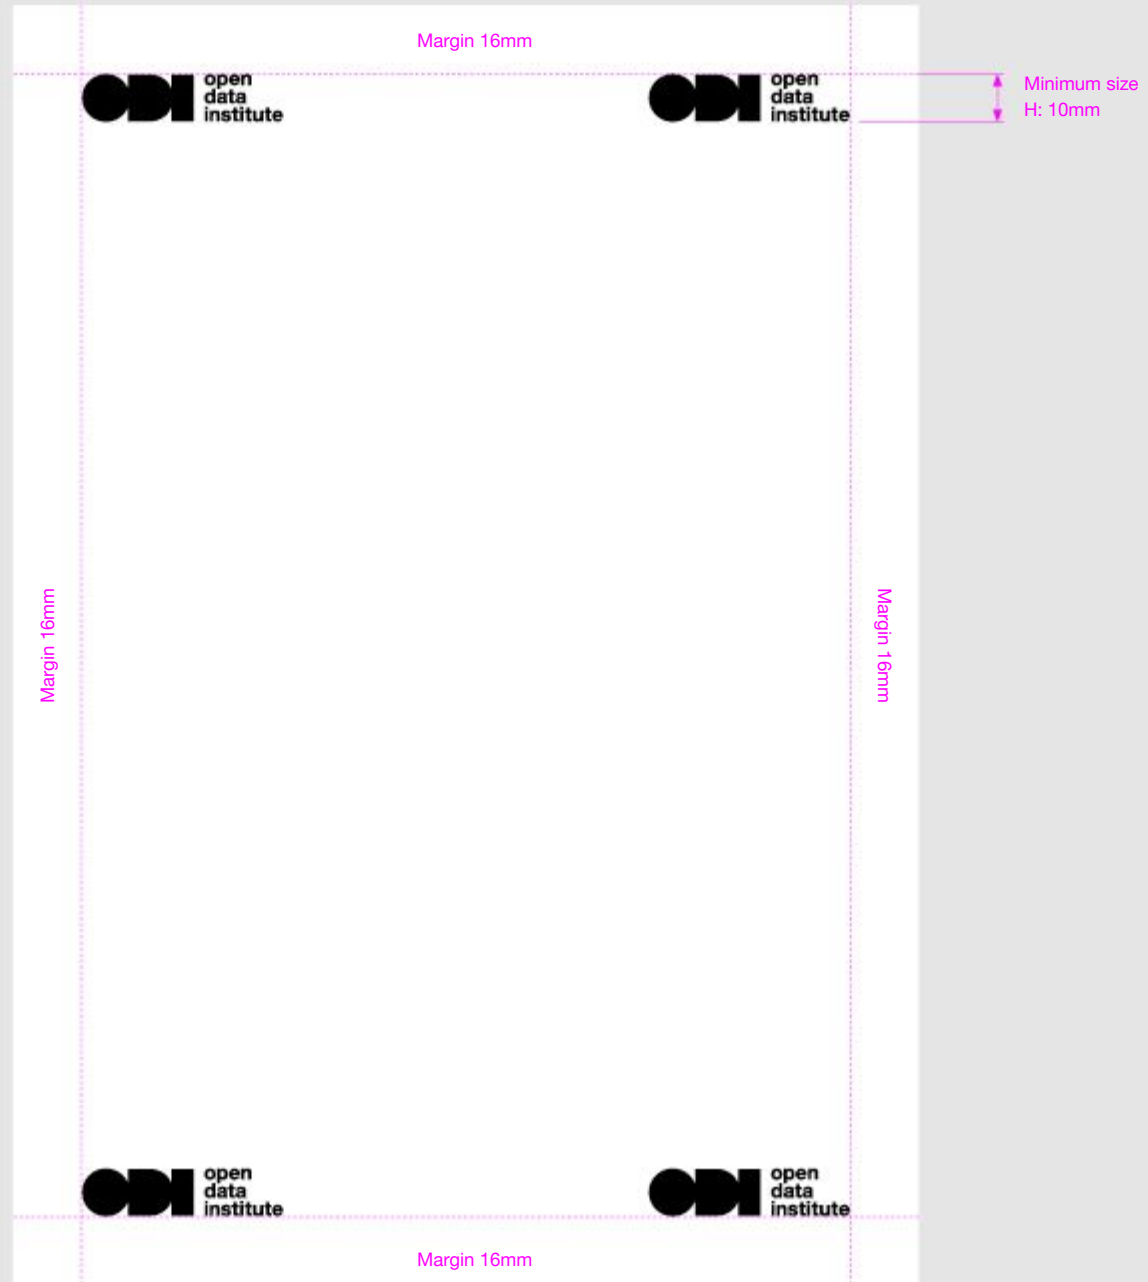

Logo rules

On A4 documents use the ODI wordmark.

You can place it on any of the corners.

To retain the integrity of the wordmark it should be sized between 10mm and 16mm high, with all the margins set to 16mm.

Logo rules

We create reports independently and in collaboration with our partners.

For a front cover use the simple **ODI** **brandmark**.

Use the **ODI wordmark** on the inside back cover as a sign off.

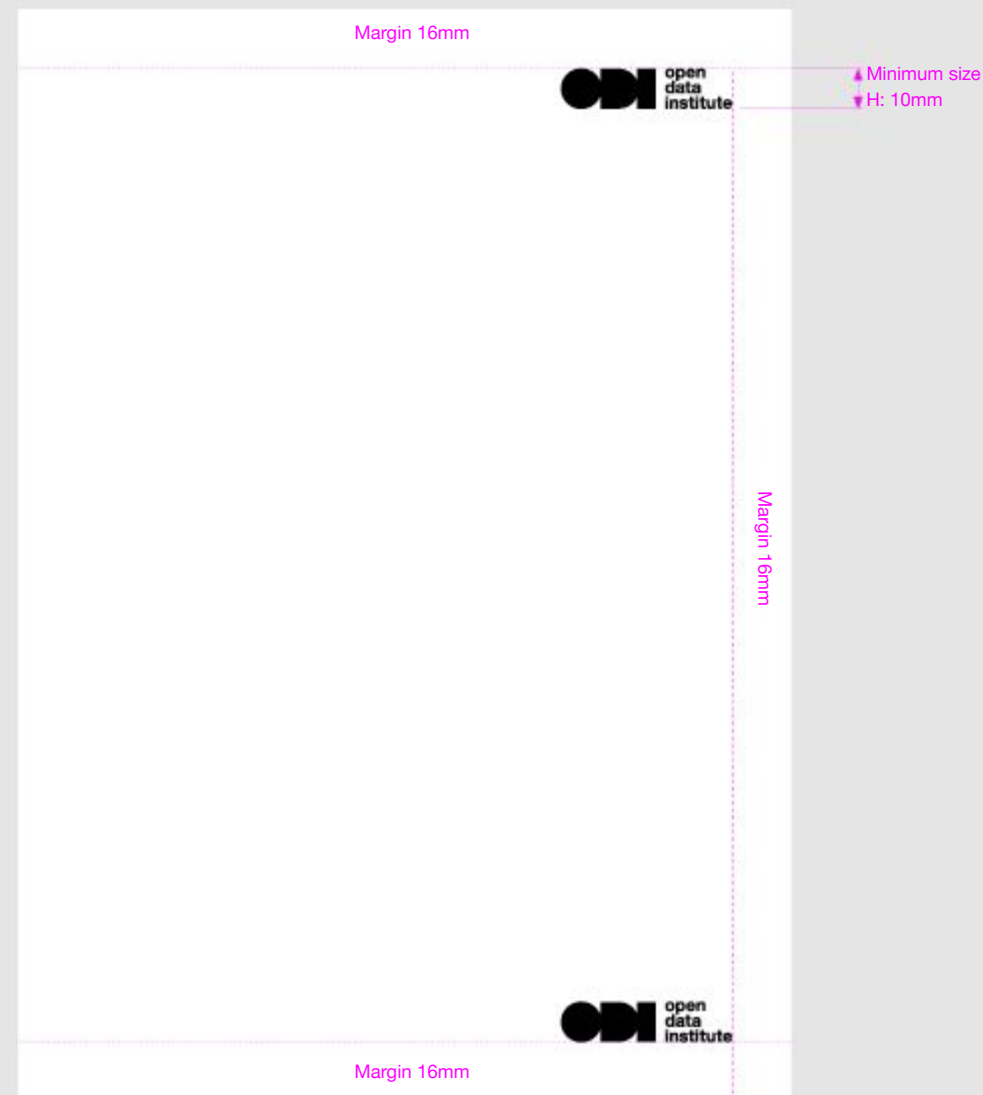

The placement of the logo is more flexible

- Top left or right on the front cover
- Top or bottom on the back cover

Distance from edge = 70% logo height

Front cover
A4 report logo
example

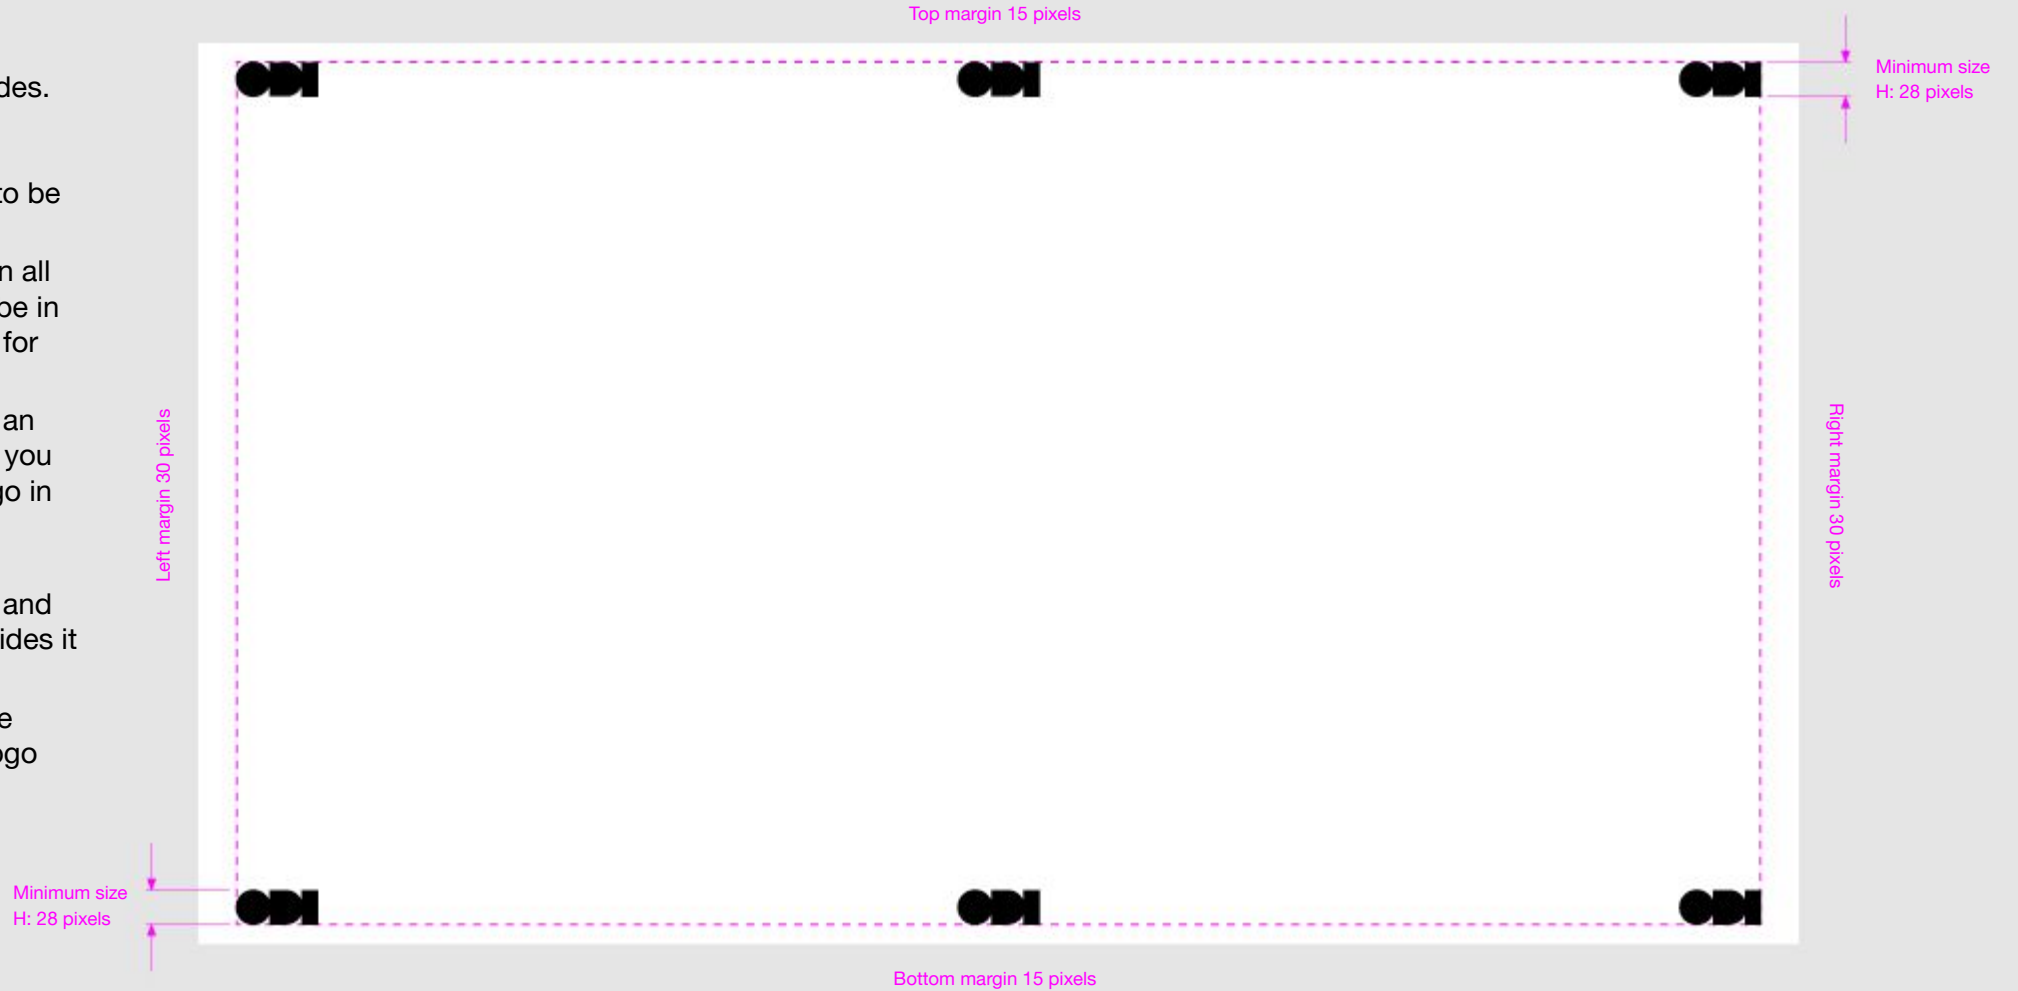

Inside back
cover A4 report
logo example

Logo rules

We use 16:9 presentation slides. We encourage people to photograph and share our presentations so we need it to be clearly branded.

- Have **one** ODI logo on all your slides — it may be in graphic or illustration for that particular slide
- If there is not already an ODI logo on the slide you can place the ODI logo in any **one** of these 6 locations
- Choose **one** location and stick to it for all the slides it needs to be included
- There should never be more than **one** ODI logo on a slide.

Margins:
Top / Bottom 15 pixels
Left / Right 30 pixels

Logo rules

We create videos for our YouTube channel, but they also appear in stories, features or blogs on our website.

We expect people to view our videos on a mobile first, so ensure the captions in the lower thirds, and any other screen text, will be legible and clear.

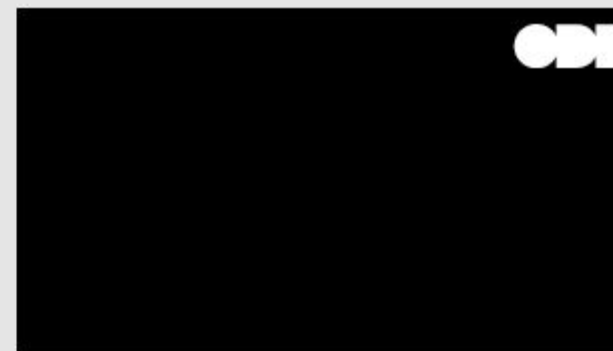

We place the logo 'bug' in either the top left or right of the screen for films that are otherwise unbranded.

We like to use the endplate for a call to action.

Visit the [youtube channel](#)

Title

Logo 'bug'

Lower thirds

Lower thirds

Endplate

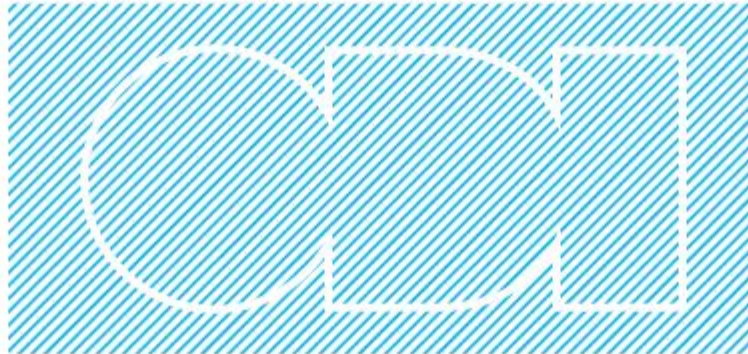

Endplate

Logos rules

You can put a solid colour inside or behind the logo.

When putting an image inside or behind the logo, ensure the logo is legible, clear and bold.

Choose an image that is meaningful for the context, to make sure it supports the overall communication for the audience.

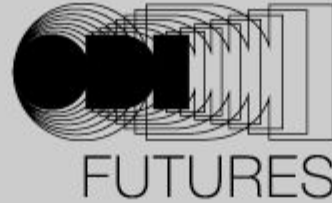

Sub-logos

Programmes, initiatives, and campaigns example logos

Very occasionally there is a business need for an ODI sub-logo.

Please do not create sub-brands or modified versions of our logo without talking to the us first at brand@theodi.com

Colours

Primary colours

Vibrant data visualisations are the inspiration for our brand.

But too many, clashing or similar colours can destroy good communication. We never use four colours when three will work better, nor three when two colours work best.

For longform reports and documents we will only use colours that make it easy to read.

Typeface

Primary typeface

Our style is functional and bold, and using our chosen typeface is crucial to the delivery of our visual identity.

The primary typeface is Helvetica Neue. It is an elegant sans serif typeface for clear and precise communication with style.

Using our chosen typefaces, the correct colours and weight, ensures that our typography is consistent and legible across all our communication channels.

Using a Mac?

Helvetica Neue is a default font on Macs and it is free to use.

Using a PC?

If you are on a PC and not a designer, you can use Helvetica or Arial as a substitute typeface for documents and presentations. These substitutes are both available on PCs and free to use, and like Helvetica Neue, they are easy to read and pleasing on the eye.

Helvetica Neue
Bold *Italic*
Medium *Italic*
Regular *Italic*
Light *Italic*
Thin *Italic*

Helvetica Neue is sans-serif typeface developed in 1957 by Swiss typeface designer Max Miedinger and Eduard Hoffmann.

<https://en.wikipedia.org/wiki/Helvetica>

Primary typeface

Our style is functional

- keep it simple, clear, bold and accessible
- carefully consider the hierarchy of your content to best communicate it
- always range the body text left

Do not

- distort
- use drop shadows
- add other effects

Our style is functional by default. Helvetica Neue Bold 32px

Font size 32px / Leading 36px / Kerning optical / -25 Tracking

**Always range body text left. Carefully consider hierarchy, line spacing and letter spacing.
Don't distort, use drop shadows, or add other effects. Keep it simple. Helvetica Neue Bold 13px**

Font size 32px / Leading 16px / Kerning optical / -15 Tracking

Always range body text left. Carefully consider hierarchy, line spacing and letter spacing.
Don't distort, use drop shadows, or add other effects. Keep it simple. Helvetica Neue Medium 13px

Font size 32px / Leading 16px / Kerning optical / -15 Tracking

Always range body text left. Carefully consider hierarchy, line spacing and letter spacing.
Don't distort, use drop shadows, or add other effects. Keep it simple. Helvetica Neue Regular 13px

Font size 32px / Leading 16px / Kerning optical / -15 Tracking

Small text, including captions, attributions, and footnotes, are CAPITALISED ONLINE. Helvetica Neue Regular 11px
This second line is here to demonstrate the leading size (line space).

Font size 11px / Leading 12px / Kerning optical / 0 Tracking

Secondary typeface (restricted use)

Our ‘secondary typeface’ are other fonts within the extended Helvetica Neue family.

These alternative styles of Helvetica Neue are reserved for marketing, communications campaigns, and the creation of unique programme identities – and other projects that may require more creative flexibility.

Please contact brand@theodi.com if you are intending to use them as font licenses need to be allocated or purchased.

93 Black Extended

73 Bold Extended

63 Medium Extended

85 Heavy

89 Compressed Bold

69 Compressed Medium

49 Compressed Light

77 Condensed Bold

67 Condensed Medium

57 Condensed

47 Condensed Light

Secondary typeface example (restricted use)

Our ‘secondary typeface’ are other fonts within the extended Helvetica Neue family.

These alternative styles of Helvetica Neue are reserved for marketing, communications campaigns, and the creation of unique programme identities – and other projects that may require more creative flexibility.

Please contact brand@theodi.com if you are intending to use them as font licenses need to be allocated or purchased.

Example: ODI Summit 2020, Data | Futures

DATA

Helvetica Neue 69 Compressed Medium

FUTURES

Helvetica Neue 49 Compressed Light

Secondary typeface example (restricted use)

Our ‘secondary typeface’ are other fonts within the extended Helvetica Neue family.

These alternative styles of Helvetica Neue are reserved for marketing, communications campaigns, and the creation of unique programme identities – and other projects that may require more creative flexibility.

Please contact brand@theodi.com if you are intending to use them as font licenses need to be allocated or purchased.

Example: ODI Summit 2021, Data <> People

The word "DATA" is displayed in a large, bold, black, sans-serif font. The letters are thick and have a slightly condensed appearance, with the 'A's having a wide base.

Helvetica Neue 63 Medium Extended

The word "PEOPLE" is displayed in a large, bold, black, sans-serif font. The letters are thick and have a slightly condensed appearance, with the 'O' being particularly wide and the 'P's having a strong vertical stroke.

Helvetica Neue 57 Condensed

The ODI's theory of change

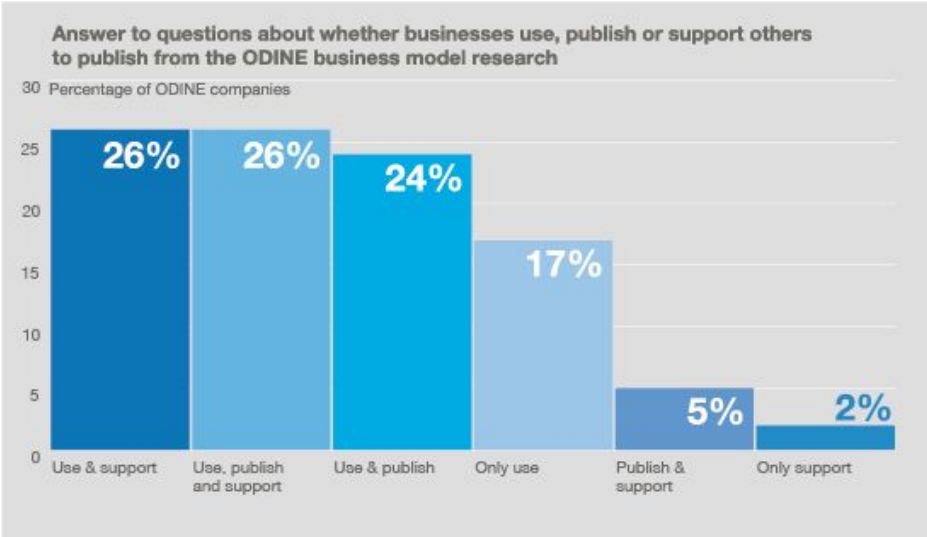

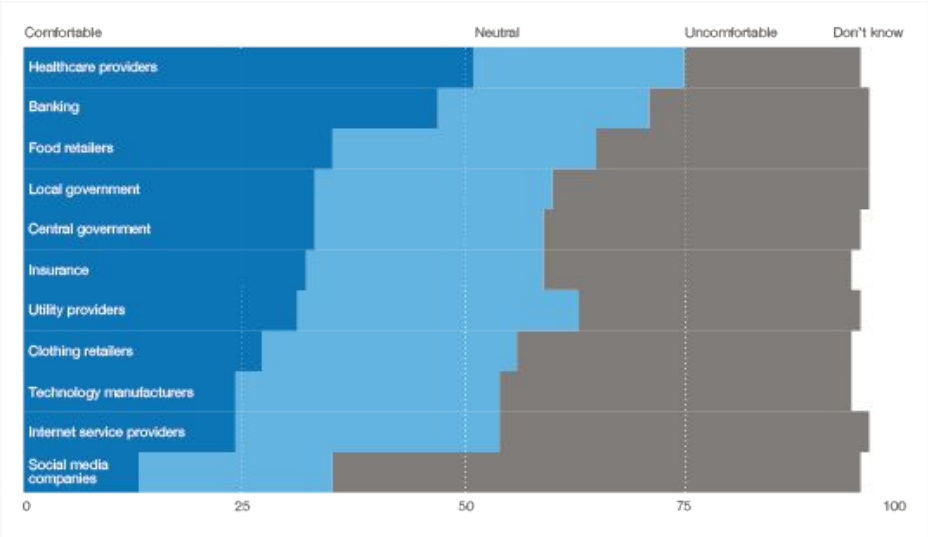

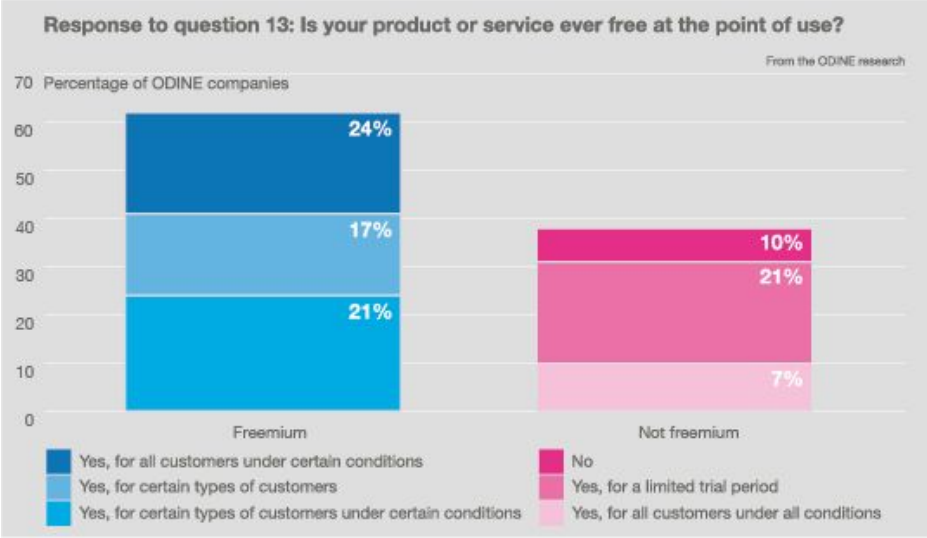

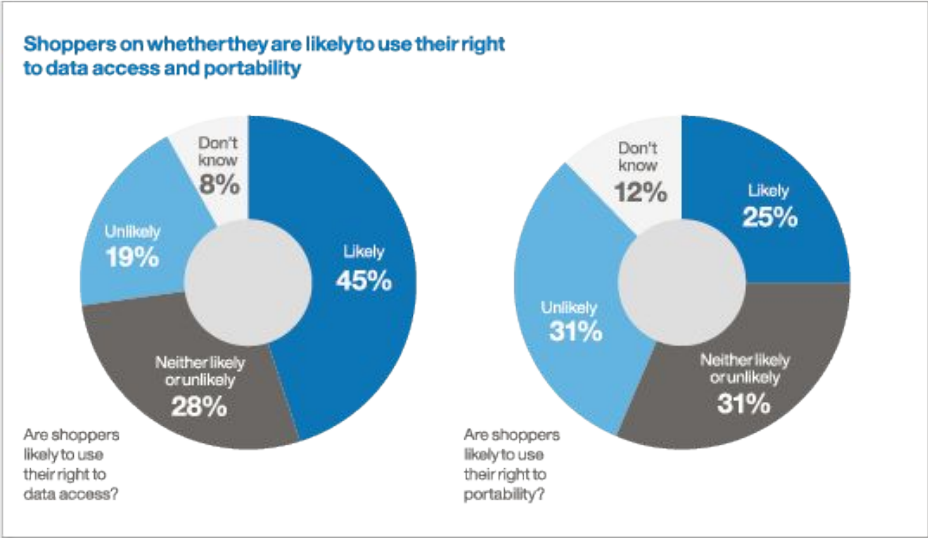

We want people who **steward** data, and people who **create** things with it, to act in ways that bring about **positive impacts**.

Ethical use of data helps to improve trust, and bring about the best economic and social outcomes.

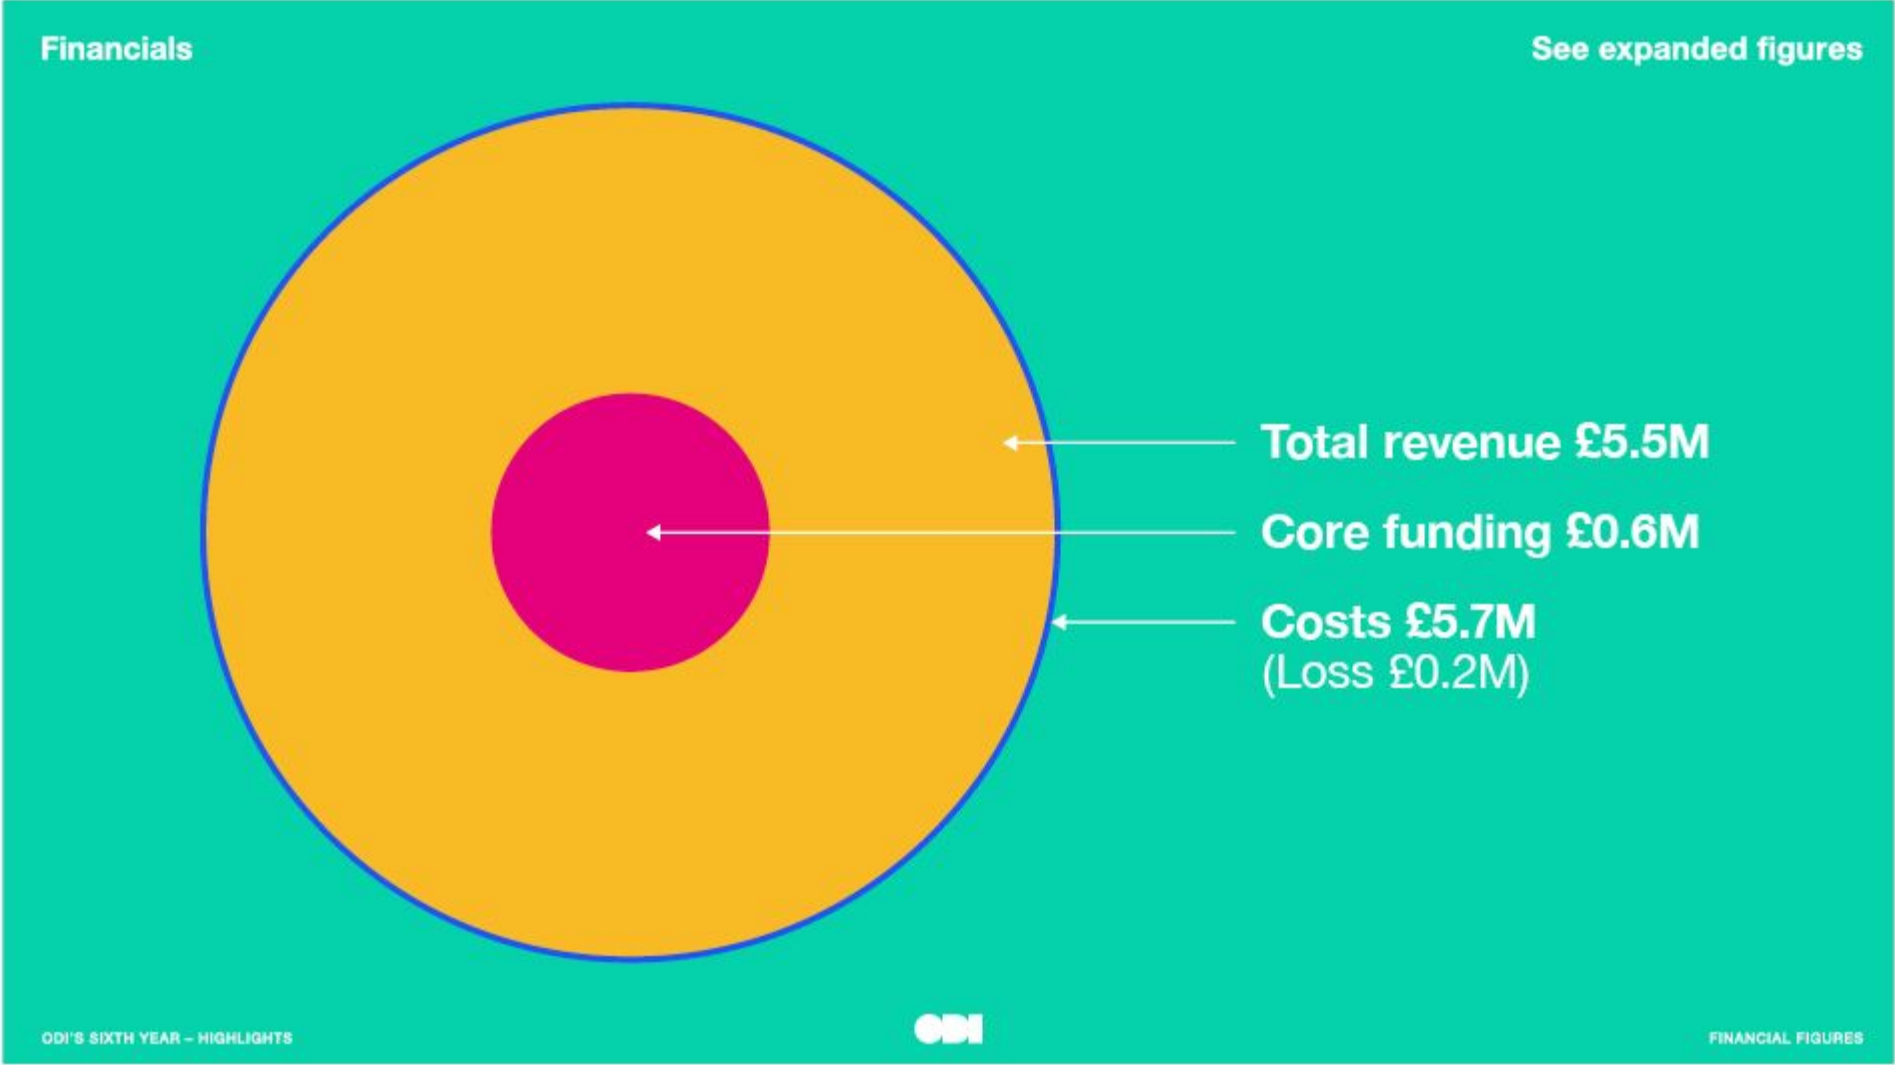

We want to avoid a future where data is **feared** or **hoarded**. We want data to work for everyone.
